A Secret Envelope.

He, the witnes, had questioned the officers who acted as judges in the recourtmartial of 1854 in regard to the presentation to the court of a secret envelope. All, with a single exception, had assured him that they did not remember reading the Panizzardi telegram, although they could not declare under oath that it was out among the documents. These officers applosized for the vagueness of their recollections of the large of five years. Mercier asseverated that these statements themselves constituted proofs, but he thought it necessary to point out contradictions in the evidence of Captain Freystaetter.

The session was resumed at 10:15 a. m., when Major Carriere began the guestion retire and, headed by the generals, they bowed to the judges and trooped out of court, in accordance with the orders of the minister of war, General de Gallifet, to start to rejoin their regiments within two hours after the beginning of the summing of the summing up of the prosecution.

Major Carriere began by reading the judgment of the court of cassation and the questions referred to the present courtmartial. The major said:

"Colonel and course or By the judgment of the court of cassation and the questions referred to the present courtmartial that the court of cassation and the questions of the court of cassation and the questions referred to the present courtmartial at Rennes. The silegations of General Mercler caused so much excitement in court that Colone! Jouaust asked the general not to enlarge on the subject.

In conclusion, General Mercler invited the judges to pay no attention to Captain Freystaetter's statements, but to accord to the evidence which he himself had the honor to give all the confidence and moral authority they would have reposed in it if the Freystaetter incident had never happened.

Maitre Demange said he agreed with General Mercler that the Freystaetter incident could be dropped without injuring the case of Dreyfus.

Counsel also said that although representing himself to be a political refugee, if Cernuschi had not left Austria he would have been placed in an asylum for the insane.

M. Labori then asked that a letter received from the witness, Grenler.

M. Labori then asked that a letter received from the witness, Grenler, should be read.

The government commissary admitted that he received the letter, but he said it was of no importance.

Counsel thought otherwise and read a copy of the letter which Grenier had sent him simultaneously with the one to Major Carriers.

He said General Chamoin had handed the court a letter from Colonel Schwartzkoppen to his government, announcing that he was about to send them information regarding the real effectiveness of the Russian army, and this was also referred to in Esterhazy's letter. Colonel Schwartzkoppen had also mentioned the Paris and Toulon maneuvers, which explain the phrase "I am going to the maneuvers."

In reply to the usual question, Dreyfis said that Captain Humbert's recollections were not exact, adding:

After further evidence on this point, a letter from Esterhazy to General Roget was read in which the writer complained that no use was made of his information, and violently attacked M. Bertillou, who, according to Esterhazy, ought to be in an asylum for the inside of his miserable condition, described General de Bolsdeffre as a scoundrel and the Echo de Paris as a "dirty Jew sheet," and that it was a plan to abandon him and then prosent the printing of which I was instructed to represent the properties of the properties of the properties of the papers mentioned.

General Mercier Again.

Colonel Jauaust—Did you apply to Colonel Sandherr with the view of entering the statistical section?

Dreyfus—No, no.

Colonel Jouaust—Did you not express such a desire to your comrades?

Dreyfus—No.

General Mercier here reappeared on the scene. After saying that the evidence of Captain Freystaetter must have greatly influenced the judgea, he referred to the attacks on himself made by the revisionist newspapers, saying that in consequence of Freystaetter's assertions he had been described as a forger, and it was great satisfaction to him now to be able to reply to Captain Freystaetter by adducing, in addition to the testimony of Colonel Maurel, his own testimony, which was canfirmed by Colonel du Paty de Clam's deposition.

He maintained that in 1884 he gave orders that the various translations of the Panizzardi Jelegram received from the first of the panizzardi Jelegram received from the panizzardi Jelegram received from was most discretized. fear."
Major Carriere then entered upon a review of the case. He defended the secret sessions as being necessary, while they did not injure the diffusion of light. He traced the espionage plot, recalled the discovery of the bordereau and the investigation showing the traitor was Dreyfus; reviewed Dreyfus' prosecution and trial and the judgment of 1834.

"The proceedings," said Major Carriere, "were conducted according to the
prevailing conditions. I will say nothing in regard to the moral character of
the prisoner, the question of his gambling or consorting with loose women.
It has been said that we military men

Speaks of the Bordercau.

The major proceeded to examine the bordereau, saying that apart from the question of handwriting, upon which the experts fell out, he thought that the references to covering the troops and the artillery formation were very significant. Esterhazy, he pointed out, would have had no difficulty in securing the firing manual before; he could hardly have written that it was difficult to get, while Dreyfus could not easily have obtained it.

"I said to myself, let us take the buil by the horns. It was Picquart who brought about the revision. Let us study Picquart, I found his case perfectly constructed, and for a moment hoped we might acquit and rehabilitate an innocent man. It would have been all to our advantage and no trouble to repair a judicial error of the judges of 1894, whose honor has never been impugned. That would necessarily have pacified the public mind.

"But closer investigation of Picquart's case showed fissures. My momentary conviction of the innocence of Dreyfus was transformed into a stronger belief in his guilt, which has been confirmed by the evidence of the witnesses, and I came here to tell you on my and and conscience the Drey

The report that the Oregon Short en days ago, their recall meant that the schools. Action to this end was they had finished the work with which they were entrusted, and should in no wise be construed to mean that the Short Line had repudiated the agreement to place Boise on the main line, which agreement was practically consummated at the time Mr. Harriman and the Boise committee induised in conferences with local Short Line officials in this city, about three weeks ago.

## Mr. Pierce's Views.

Mr. Pierce's Views.

W. E. Pierce, representing the people of Boise in regard to the question at issue, arrived in town yesterday. Mr. Pierce was interviewed at the Knutsford last night and said:

"The tax assessors of Idaho met in convention last year and agreed unanimously to raise the real estate taxes in all towns throughout the state about 25 or 35 per cent, or from one-fifth to one-fourth the assessed value of the property, and the residents of the towns accepted the change without protest. Of course, this means an increase of taxation on the land that the Short Line would require to complete the proposed extension, but it also means that the railroad company will have to pay the railroad company will have to pay about \$15,000 less in taxes by compari-son with the enhanced real estate val-uation than they would had the ex-tension been completed while the for-mer rate of taxation was in force.

Main Line for Boise. Main Line for Boise.

"The Short Line will undoubtedly place Boise on the main line as soon as the plans can be worked out in detail and the construction work completed. Of course that will take some time, say about a year. I have positive assurance from the highest Short Line officials that the extension will be begun as soon as the necessary bonus is raised. Solicitation has been going on actively in Boise, and we have already secured signatures that represent nearly \$150,000—this from the big men of the town. We haven't approached the general public as yet. officials that the extension will be begun as soon as the necessary bonus is raised. Solicitation has been going on actively in Boise, and we have already secured signatures that represent nearly \$150,000-this from the big men of the town. We haven't approached the general public as yet.

"It is true that Captain J. R. De Lamar has subscribed \$16,000 towards the required \$200,000. He has large business interests in Boise and vicinity and has extensive real estate holdings. Captain De Lamar considers that his interests are large enough to war-

ings. Captain De Lamar considers that his interests are large enough to warrant that amount and generously subscribed it. I wish to state that Boise has no intentions whatever of injuring in any way the prospects of Nampa or any other town benefited by the Short Line traffic. All we ask is that Boise be placed upon the main line. The railroad company can go to any town it sees fit after that, Nampa and all the rest included."

buildings and grounds submitted to the board last evening its belated annual report. The report states that during the year which ended June 30 the sum of \$23,242.44 was expended in the erection of the Jordan and Riverside school buildings. Repairs and improvements to buildings amounted to \$9,941.84. General repairs have been made preparatory to school opening. For the current year contracts calling for an expenditure of \$33,776 are being executed for erecting annexes to the Emerson and Bryant school buildings and for providing additional room at the Riverside. Jackson and Twelfth schools.

Special attention has been given, the report continues, to the sankfary condition of all school buildings, and many improvements have been and will be made in this direction. Wherever possible, it is desirable to have such buildings as are not already connected with the sewer system provided with these necessary sanifary arrangements. Plans are under consideration for bettering the ventilating apparatus in some of the older school houses.

While the new High school building is not all that could be desired, the improvement over the old quarters in additional room, better light, heat and ventilation contribute to more satisfactory work. The finances of the board of education, it is suggested, should be in condition at the end of the present lease to permit of the building of a High school in keeping with the character of the grade school buildings.

Referring to the intention to hay the foundation for the much needed school building in the Eighteenth ward, the report states: "Repeated efforts have been made to procure by trade the lot at the corner of State and North Template transports. buildings and grounds submitted to the board last evening its belated annual

This lot at the corner of State and North Temple streets owned by the city. This lot is properly located and the residents of the locality are entitled to and should have better school accommodations; but lack of funds will make it impossible to buy a lot and build for years to come. It is the hope of the committee that the city council will agree to the proposition made by the board and thus permit of the erection of the proposed school building on the site owned by the city."
